## JOB VACANCY

### About This Programme

ISS Management Trainee Programme is a stepping-stone for people who are ambitious and talented with management potential to become the leader of the future in an international company. This acceleration program is designed for the best candidate to gain access to career development at every level in the company. This program offers a variety of comprehensive training to prepare potential future leaders in the wide scale of the service industry. Once you have completed the program, you will be offered a management position with the expectation that you will move to the senior manager level.

In the intensive 18 months period, you will encounter a new journey by experiencing how all divisions work.
